
REQUIREMENTS FOR ARTWORK DESIGN

- please send composite pdf constructed on the drawing of the die cut tool
- the graphics should be size 1:1 if it is not vectorised
- the artwork should not contain a colour profile
- the material should contain only Pantone or CMYK colour mode objects
- the diecut drawing has to be on a different layer, or a different color which color the artwork otherwise not containing
- please indicate if overprint is set in the document
- please vectorise all the characters in the material
- all pictures resolution should be least 300 dpi, in colour mode CMYK
- if there is a colour background, please add 3-5 mm bleed all 4 sides
- on kraft bags we can only print with colours on the PANTONE U (Uncoated) scale.
- for laminated bags please indicate colours by the PANTONE C (Coated) scale.

Before printing we are going to send you a PDF print layout for approval.

Please indicate if you would like to check the CMYK printing colours by a digital colour proof before printing. This may cause extra cost.

We do not take responsibility for any content mistakes in the artwork file sent.

Please note that on different paper materials the print colour would be different. Surface improvement as lamination or varnish can effect the colour of the print.

At sending the artwork file please indicate the names and phone numbers of the buyer and the contact person responsible for the graphics.
